

## Section 1. Chemical product and company identification

Trade name : OASIS 144  
 Product use : Sanitizer  
 Supplier : Ecolab Inc. Institutional Division  
 370 N. Wabasha Street  
 St. Paul, MN 55102  
 1-800-352-5326  
 Code : 985622  
 Date of issue : 17-October-2005  
 EPA Registration No. : 1677-43

EMERGENCY HEALTH INFORMATION: 1-800-328-0026  
 Outside United States and Canada CALL 1-651-222-5352 (in USA)

## Section 2. Composition, information on ingredients

Name	CAS number	% by weight
quaternary ammonium compounds, benzyl-c12-c16-alkyldimethyl, chlorides	68424-95-1	10
ethanol	64-17-5	1 - 5

## Section 3. Hazards identification

Physical state : Liquid (Liquid)  
 Emergency overview : DANGEROUS

CAUSES RESPIRATORY TRACT, EYE AND SKIN BURNS.

HARMFUL IF ABSORBED THROUGH SKIN OR IF SWALLOWED.

Do not ingest. Do not get in eyes, on skin or clothing. Do not breathe vapor or mist. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.

### Potential acute health effects

Eyes : Corrosive to eyes.  
 Skin : Corrosive to the skin.  
 Inhalation : Corrosive to the respiratory system.

Ingestion : Harmful if swallowed Causes burns to mouth, throat and stomach.

See toxicological information (section 11)

## Section 4. First aid measures

Eye contact : In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention immediately

Skin contact : In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention immediately

Inhalation : If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.

Ingestion : Rinse mouth; then drink one or two large glasses of water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention immediately.

## Section 5. Fire fighting measures

Flash point : > 100°C  
 Fire-fighting media and instructions : Use an extinguishing agent suitable for the surrounding fire.

Dike area of fire to prevent runoff  
 No specific hazard.

Special protective equipment :  
 for fire-fighters

Fire fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full facepiece operated in positive pressure mode.

## Section 6. Accidental release measures

Personal precautions : Ventilate area of leak or spill. Do not touch damaged containers or spilled material unless wearing appropriate protective equipment (Section 8). Stop leak if without risk. Prevent entry into sewers, water courses, basements or confined areas.

Environmental : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Methods for cleaning up : If emergency personnel are unavailable, contain spilled material. For small spills, add absorbent (soil may be used in the absence of other suitable materials), scoop up material and place in a sealable, liquid-proof container for disposal. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal.--

## Section 7. Handling and storage

Handling : Do not ingest. Do not get in eyes, on skin or on clothing. Keep container closed. Use only with adequate ventilation. Do not breathe vapor or mist. Wash thoroughly after handling.

Storage : Keep out of the reach of children. Keep container tightly closed. Keep container in a cool, well-ventilated area.  
 Do not store above 50°C

## Section 8. Exposure controls, personal protection

Engineering controls : Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective occupational exposure limits. Provide eyewash and safety shower in area if contact or splash hazard exists.

### Personal protection

Eyes : Use chemical splash goggles. For continued or severe exposure wear a face shield over the goggles.

Hands : Use chemical-resistant, impervious gloves.

Skin : Wear suitable protective clothing.

Respiratory : Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

### Exposure limits

ACGIH TLV (United States, 1/2004).  
 TWA: 1880 mg/m<sup>3</sup> 8 hour(s). Form: All forms  
 TWA: 1000 ppm 8 hour(s). Form: All forms  
 OSHA PEL (United States, 8/1997).  
 TWA: 1900 mg/m<sup>3</sup> 8 hour(s). Form: All forms  
 TWA: 1000 ppm 8 hour(s). Form: All forms

## Section 9. Physical and chemical properties

Physical state : Liquid. (Liquid.)

Color : Purple. (Dark.)

Odor : Sweetish.

pH : 7.5 (100%)

Specific gravity : 0.983 (Water = 1)

**Section 10. Stability and reactivity**

Stability : The product is stable

**Section 11. Toxicological information**

**Potential acute health effects**

- Eyes : Corrosive to eyes.
- Skin : Corrosive to the skin
- Inhalation : Corrosive to the respiratory system.
- Ingestion : Harmful if swallowed. Causes burns to mouth, throat and stomach

**Potential chronic health effects**

Chronic effects on humans : Contains material which causes damage to the following organs: blood, the reproductive system, liver, upper respiratory tract, skin, central nervous system (CNS), eye, lens or cornea

**Section 12. Ecological information**

Products of degradation : These products are carbon oxides (CO, CO<sub>2</sub>) and water. Some metallic oxides.

**Section 13. Disposal considerations**

Waste disposal : The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Consult your local or regional authorities.

**Section 14. Transport information**

Regulatory information	UN number	Proper shipping name	Class	Packing group	Additional information
DOT Classification	Not regulated				

**Section 15. Regulatory information**

APPLIES ONLY DURING ROAD TRANSPORT

Any variation of the shipping description based on the packaging is not addressed.

**Section 16. Other information**

- HCS Classification : Corrosive material
- Target organ effects : SARA 302/304/311/312 extremely hazardous substances: None
- U.S. Federal regulations : SARA 302/304 emergency planning and notification None.
- TSCA 8(b) inventory : All materials are listed or exempt
- California Prop. 65 : No products were found.
- EPA Registration No. : 1677-43

**Section 16. Other information**

Hazardous Material Information System (U.S.A.)

Health	3
Fire hazard	0
Reactivity	0
Personal protection	B

Date of issue : 17-October-2005.  
Responsible name : Regulatory Affairs

Date of previous issue : No previous validation.  
Notice to reader
