

## Section 1. Chemical product and company identification

Trade name : LIME-A-WAY  
 Product use : Delimer  
 Supplier : Ecolab Inc. Institutional Division  
 370 N Wabasha Street  
 St Paul, MN 55102  
 1-800-352-5326  
 : 942771

Date of issue : 11-July-2008

EMERGENCY HEALTH INFORMATION: 1-800-328-0026  
 Outside United States and Canada CALL 1-651-222-5352 (in USA)

## Section 2. Composition, information on ingredients

Name : phosphoric acid  
 CAS number : 7664-38-2  
 % by weight : 30

## Section 3. Hazards identification

Physical state : Liquid, [Liquid]  
 Emergency overview : DANGER!  
 CAUSES DIGESTIVE TRACT, EYE AND SKIN BURNS.  
 CAUSES RESPIRATORY TRACT IRRITATION.  
 Do not ingest. Do not get in eyes, on skin or on clothing. Avoid breathing vapors, spray or mists. Use only with adequate ventilation. Keep container closed. Wash thoroughly after handling.

### Potential acute health effects

Eyes : Corrosive to eyes.  
 Skin : Corrosive to the skin  
 Inhalation : Irritating to respiratory system  
 Ingestion : Causes burns to mouth, throat and stomach  
 See toxicological information (section 11)

## Section 4. First aid measures

Eye contact : In case of contact, immediately flush eyes with cool running water. Remove contact lenses and continue flushing with plenty of water for at least 15 minutes. Get medical attention immediately.  
 Skin contact : In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention immediately. Wash clothing before reuse. Clean shoes thoroughly before reuse.  
 Inhalation : If inhaled, remove to fresh air. If exposed person is not breathing, give artificial respiration or oxygen applied by trained personnel. Get medical attention if irritation persists.  
 Ingestion : If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention immediately.

## Section 5. Fire fighting measures

Flash point : > 100°C  
 Hazardous thermal decomposition products : phosphorus oxides  
 Fire-fighting media and instructions : Use an extinguishing agent suitable for the surrounding fire.

Dike area of fire to prevent runoff.

In a fire or if heated, a pressure increase will occur and the container may burst.  
 Special protective equipment for fire-fighters : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

Personal precautions : Immediately contact emergency personnel. Stop leak if without risk. Use suitable protective equipment. Keep unnecessary personnel away. Do not touch or walk through spilled material.  
 Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  
 Methods for cleaning up : If emergency personnel are unavailable, contain spilled material. For small spills, add absorbent (soil may be used in the absence of other suitable materials), scoop up material and place in a sealable, liquid-proof container for disposal. For large spills, dike spilled material or otherwise contain it to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal.

## Section 7. Handling and storage

Handling : Do not ingest. Do not get in eyes, on skin, or on clothing. Avoid breathing vapors, spray or mists. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling. Do not mix with bleach or other chlorinated products – will cause chlorine gas.  
 Storage : Keep out of reach of children. Keep container in a cool, well-ventilated area. Keep container tightly closed.  
 Do not store above the following temperature: 50°C

## Section 8. Exposure controls/personal protection

Engineering measures : Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. Provide suitable facilities for quick drenching or flushing of the eyes and body in case of contact or splash hazard.

### Personal protection:

Eyes : Use chemical splash goggles. For continued or severe exposure wear a face shield over the goggles.  
 Hands : Use chemical-resistant, impervious gloves.  
 Skin : Use synthetic apron, other protective equipment as necessary to prevent skin contact.  
 Respiratory : Avoid breathing vapors, spray or mists.  
 Name : phosphoric acid

### Exposure limits

ACGIH TLV (United States, 1/2007).  
 STEL: 3 mg/m<sup>3</sup> 15 minute(s).  
 TWA: 1 mg/m<sup>3</sup> 8 hour(s).  
 OSHA PEL (United States, 11/2006).  
 TWA: 1 mg/m<sup>3</sup> 8 hour(s).

## Section 9. Physical and chemical properties

Physical state : Liquid, [Liquid]  
 Color : Green  
 Odor : Faint odor  
 pH : 1.1 [Conc. (% w/w); 100%]  
 Relative density : 1.188  
 Dispersibility properties : Easily dispersible in the following materials: cold water and hot water.  
 Solubility : Easily soluble in the following materials: cold water and hot water.

## Section 10. Stability and reactivity

Stability : The product is stable. Under normal conditions of storage and use, hazardous polymerization will not occur  
 Reactivity :  
 • Extremely reactive or incompatible with the following materials: alkalis.  
 • Reactive or incompatible with the following materials: metals.  
 Do not mix with bleach or other chlorinated products – will cause chlorine gas.  
 Hazardous decomposition : Under normal conditions of storage and use, hazardous decomposition products should not be produced.  
 Hazardous polymerization : Under normal conditions of storage and use, hazardous polymerization will not occur

## Section 11. Toxicological information

### Potential acute health effects

Eyes : Corrosive to eyes.  
 Skin : Corrosive to the skin.  
 Inhalation : Irritating to respiratory system.  
 Ingestion : Causes burns to mouth, throat and stomach.

### Potential chronic health effects

Target organs : Contains material which may cause damage to the following organs: lungs, upper respiratory tract

## Section 12. Ecological information

## Section 13. Disposal considerations

Waste disposal : The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements  
 Waste classification : Unused product is D002 (Corrosive)  
 Consult your local or regional authorities.

## Section 14. Transport information

See shipping documents for specific transportation information.

## Section 15. Regulatory information

HCS Classification : Corrosive material  
 Target organ effects : SARA 302/304/311/312 extremely hazardous substances. No products were found.  
 U.S. Federal regulations : SARA 302/304 emergency planning and notification: No products were found.  
 California Prop. 65 : All components are listed or exempted.  
 TSCA 8(b) inventory : No products were found.

## Section 16. Other information

Hazardous Material Information System (U.S.A.)	
Health	3
Flammability	0
Physical hazards	0

Date of issue : 11-July-2008.

Responsible name : Regulatory Affairs

Date of previous issue : 27-March-2007.

Notice to reader
